

S35 BOTTLE CARRIER

FOR CARRYING UP TO 6 X 250ML DRECHSEL BOTTLES

We are pleased to introduce our latest new product to accompany S35 Multi-Purpose Gas Sampling System (also known as Total Oxidation Unit TOU): a purpose built bottle carrier for added convenience and safety when transporting 250ml Drechsel bottles:

The purpose-built Drechsel bottle carrier with lid is specially designed to locate and accommodate 6 x 250ml Drechsel bottles with diffusers and associated tubes.

It is manufactured in brushed stainless steel with 4 x over centre clamps used to secure the lid to the carrier.

Plastic locator discs are fitted to the inside of the carrier to locate the bases of Drechsel bottles.

A silicone seal between the lid and the carrier provides added protection, and a carrying handle adds extra convenience.

Each corner of the carrier has an exterior supporting foot.

Bottles not included (see S35 Spares List for bottles).
